Company Update

On February 25th, Grigeo reported financial results for Q4'19 and full year 2019 - the company which at the moment is blamed for being involved in pollution scandal in Klaipeda, Lithuania. Its overall impact we will be able to evaluate only in upcoming financial quarters after the company and authorities come up with further explanation.

In Q4'19 company achieved lower sales of EUR 33.99 mn, 2% less than in Q4'18, net profit was down only by 0.2% thanks to reduced operating expenses. Full year 2019 result saw decrease both in top line's and bottom line's numbers. Sales for 2019 reached EUR 140.3 mn, which is 1.6% less than in 2018, net profit droped down to EUR 13.1 mn, being 6.7% lower. Net profit in 2019 was impacted by increase in finance costs in the amount of EUR 901 th., the nature of which is not explained in the Notes. We assume, this amount comes from penalty fee for failed investment deal transaction between Grigeo and Invalda, for which the former needs to pay EUR 1 mn to Invalda for the termination of agreement.
