Company Update

Sales of Vilvi Group remained almost flat during 4Q'20 with just 0.2% growth as compared to the same quarter last year. The company managed to significantly expand its profitability: gross profit was up by 31%, operating income increased 9 times and it successfully recovered from last year losses by reporting EUR 721th in profits. Also, the whole FY 2020 was successful as Vilvi Group delivered 4% growth in sales and 67% growth in gross profit. Major increase in sales was seen in Cheese (48% of sales) and dry milk (17% of sales) products, while sales of Fresh milk products were lower. Geographically, performance was also uneven - while sales in Lithuania weakened (17% of sales), turnover in European Union and other countries increased. The company managed to stay resilient despite price drops in several product categories through expansion of its geographical reach to Asia as well as South and Central Americas.
